

PS10 *Gillingham*

Andrew Gillingham

April 2019

1 Introduction

As you will probably be able to see from the R script, I got completely lost during question 6. Because of that I didn't know how to do 7-9. However, I did want to still turn in a table and be able to practice that because it will be useful for the project.

Table 1: Optimal Values

Model	Optimal Value	Out of Sample
Tree Model	0	0
Logistic Reg	0	0
Neural Network	0	0
Naive Bayes	0	0
kNN	0	0
SVM	0	0
